Dr. Mica Araya is a board-certified aesthetic physician and the founder of YUKIMI Clinic, a physician-led aesthetics practice in the Philippines known for its personalized, science-based approach to skin and facial rejuvenation. She also co-directs Elite Skin Aesthetic and Laser Center, where she remains actively involved in patient care and leads clinical protocol development.

Her areas of expertise include non-surgical lifting, regenerative skin treatments, periorbital rejuvenation, and alopecia management. She holds an MBA and is currently completing her MSc in Clinical Dermatology with a focus on alopecia.

Dr. Araya has received recognition for her work in advanced threadlifting techniques, having been awarded twice by APTOS for her contributions to the field. Under her leadership, YUKIMI Clinic has also been consistently recognized by SkinPen and Galderma Philippines for excellence in microneedling and injectable-based treatments. Her practice emphasizes safe, natural-looking results through individualized, combination-based protocols.
