
Dr. Robert Dorfman

Dr. Robert Dorfman is a distinguished aesthetic surgeon and hair transplant specialist based in Beverly Hills, California. He is widely recognized for his expertise in hair restoration, anti-aging, and regenerative medicine, offering cutting-edge treatments that enhance natural beauty and restore confidence with precision and care.

Dr. Dorfman graduated from Northwestern University's elite Combined BS/MD Honors Program in Medical Education and went on to earn a Master's degree in the History of Medicine from the University of Oxford, where he explored the evolution of surgical innovation. He then did residency in Plastic & Reconstructive Surgery at UCLA before starting his own practice, the Done by Dorfman clinic, which has now expanded to locations in Beverly Hills, New York City, and Miami.

As the founder and CEO of Hair 1 Thousand Corporation, Dr. Dorfman has pioneered non-surgical hair restoration techniques that blend artistry, science, and patient-centric care. His clinical focus includes PRP, exosomes, and advanced scalp rejuvenation therapies, offering both surgical and minimally invasive options tailored to each patient. He has also authored the official textbook on Non-Surgical Hair Restoration, a gold-standard resource for doctors and healthcare practitioners.

His natural yet transformative aesthetic approach has made him a trusted expert among celebrities, industry leaders, and high-profile clients seeking discreet, high-performance results. Dr. Dorfman's signature treatments—such as The Rapunzel Treatment, The Hourglass Shot, and Tox Down Under—have set new standards in luxury aesthetic medicine.

Dr. Dorfman's expertise has been featured in major media outlets including Forbes, US Weekly, Good Day LA, and the New York Post, solidifying his reputation as one of the most sought-after physicians in the field. He is also the first provider in the United States to offer the Korean AI facial scanner—a revolutionary tool in aesthetic diagnostics—further reflecting his commitment to innovation and excellence.
