### PROFILE

I am a cosmetic surgeon that specializes in liposuction and fat grafting, as well as other minimally invasive procedures. I have been practicing adipose derived stem cell therapy since 2010 and have done extensive cosmetic and regenerative cases around the world. I also work as a cosmetic international trainer. I travel around the US and internationally to train physicians in cosmetic and stem cell procedures. I have performed about 3,500 cases of liposuction, including working with different devices (vaser, tickle lipo, smartlipo). I seek to treat patients providing regenerative therapy and to educate physicians into adding regenerative medicine to their practices.

### WORK EXPERIENCE

*President BellaBody, Inc., August 2007 – Present.* I train physicians and medical professionals on aesthetic procedures, cosmetic surgeries and stem cell isolation. I also work as a consultant for marketing and risk management in plastic surgery offices throughout the world.

*US Stem Cell Clinic, Stem cell Specialist, October 2012 – Present.* I train physicians in adipose derived stem cell harvesting and isolation process using the US Stem cell protocol. I lecture on methods of harvesting fat and operating room compliance.

*Surgical Manager PascualMD MedSpa and Surgery Center, Jan 2011 – December 2013.* Overview of the surgery schedule for patients and Surgeons. Responsible for operating room up to compliance and regulation standards. First surgical assistant in cosmetic surgery cases. Researcher for hCG weight loss program.

*American Academy of Anti-Aging, June 2008 – Present.* Medical Writer Writing protocols for aesthetic and surgical procedures. I have also a vast experience with writing medical power point presentations for conferences including: bodysculpting, fat grafting, adipose stem cells, stem cells in orthopedic treatments.

*Surgical Manager for Pure Lipo, The Ageless Aesthetic Institute, June 2008- November 2010.* Coordinate the team of surgical assistants in the Pure Lipo Training Program. Evaluate and assess their teaching skills and educational skills. Arrange and schedule the visits of surgical assistants to physicians who are part of the program.

*Surgical Assistant for Pure Lipo, Alyne Medical Rejuvenation Institute/ SL Aesthetics, 2007- 2010.* Evaluate patients who want to have body sculpture, complete a history and physical to present to the assigned physician. First assistant in cases of bodysculpture (over 2,000 cases in this three year period). I have assisted physicians all over the country.

*Medical Billing Assistant, Modugenics Institute, 2006-2007.* Prepare the monthly billing for the patients who attended this family practice office.

*General Surgeon, Hospital Materno-Infantil Niño Jesus, Barranquilla-Colombia, 2005-2006.* Attending physician in the emergency room and maternity ward. Examine and evaluate patients doing consultations/procedures and referring to specialized physicians. In the maternity ward, doing prenatal control consults and evaluating the status of the pregnancy. Identifying high-risk pregnancies to be referred to OBG-GYN and deliver babies from low risk pregnancies. Going out to rural areas to do health promotion and prevention.
