PROFILE

Radiologist with formation in Aesthetic Medicine. I combine both specialties to perform ultrasound assisted aesthetic procedures and complication treatments. I help other professionals to incorporate ultrasound into their daily practice to improve their outcomes.

Speaker in world class congresses showing the importance of ultrasound in aesthetics.

Colombian Board-Certified Radiologist, graduated from University of Cartagena, exclusively dedicated to ultrasound, Doppler and ultrasound-guided procedures since 2014.

One of the few radiologists to perform dermatological ultrasound for inflammatory pathology, oncology and skin aesthetics, ungular and capillary ultrasound and urologic Doppler for male dysfunction.

Medical Doctor's degree approved in Spain.

National Speaker of the Colombian Radiology Association.
International speaker about dermatological ultrasound for aesthetics in IMCAS and AMWC congresses.

Private practice since 2021 in the main cities of Colombia (Cartagena, Medellín and Bogotá).

Portable device for POCUS at the treating professional office or patient's home. Registered device at the competent national entity.

Member of the ACR (Colombian Association of Radiology), AAAM (American Academy of Aesthetic Medicine) and Expert Committee CMAC Iberoamérica (Collaborative in Medical Aesthetics Complications).
