

Dr. Marcelo A. Suarez-Bigetti

Dr. Marcello A. Suarez completed his training as a General Surgeon, specializing in vascular surgery, and is recognized as an authority in the subspecialty of phlebology. Dr. Suarez has pioneered the exploration of new therapies for the treatment and prevention of vein-related disorders. He has developed original surgical procedures in cosmetic surgery, developed a technique for auto-grafting and autologous adipocyte transplantation, developed a proprietary technique for follow up CO₂ laser resurfacing techniques, and conducted animal and human clinical trials on wound healing and laser tissue interaction.

Dr. Suarez has been involved in physician training programs for 19 years including many topics in clinical dermatology, cosmetic dermatology, and dermatological surgery. He has been developing Continuing Medical Education programs from the time he received his board certification in cosmetic medicine in 1998; working in conjunction with CME committee/advisory boards; education companies and communication companies; university health science centers; state/regional/local medical societies and state/regional CME organizations, he is integrally involved in the educational planning of certified activities, including needs assessment, the writing of educational objectives, and evaluation of program effectiveness in meeting identified needs of continuing medical education (CME) programs and symposia for physicians, pharmacists, nurses, and other health care professionals in the United States, Canada, and Europe.

Dr. Suarez sits on several Scientific Advisory Boards and is a Consultant for the Laser Aesthetics Inst. de Las Americas; Milano Skin Institute; Acne Research Institute; American Academy of Aesthetic Medicine; Pan American College of Aesthetic Medicine. He has published numerous articles in a variety of Medical Journals.
