

From: Ali Noori
Subject: CV

Dear Sir

I am an Iranian doctor of medicine with more than 25 years of experience in aesthetics and skin care practice in Iran and Turkey having translated and published more than 40 volumes of books and hundreds of medical and scientific articles. With a great deal of experience in minimally invasive aesthetic procedures including thousands of traceable cases of fat and filler injections, I have presented numerous lectures and trained many doctors on a man to man hands-on manner or in small groups to practice minimally invasive aesthetic procedures from botox to thread lifting, fat and fillers injections and all kinds of energy based aesthetic treatments.

I have recently presented a lecture as “Invasive or Noninvasive?(This Is The Question) (Non Invasive/Minimally Invasive) Aesthetic/Cosmetic Procedures Trend In 2017” in Dubai Derma, World Dermatology and Laser Conference with CME credits, March 27- 29, 2017 (please see attached).

I speak, write and read Farsi, English and Turkish languages very well and have practical knowledge of French, German and Arabic languages.

With best regards
Dr Ali Noori

Work experience:
