

## **Dr. Mark Baily**

*Medical Director*

**Dr. Mark Baily** has been recognized as one of the most highly regarded and well respected physicians in all of North America for almost two decades in the field of [Facial Fillers](#) and **Botox**® for both **Cosmetic** (wrinkles) and **Therapeutic** (headache, pain, sweating) indications. He is one of only a handful of physicians who are considered to have expertise in the use of Botox® for Cosmetic treatments (wrinkles) as well as it's Therapeutic indications such as Headache, back and neck pain, excessive sweating and jaw pain (TMJ).

A graduate of McGill University in Montreal (B.Sc. graduated with distinction, first class honors; M.D. 1969-1978), and the University of South Florida(1978-1981), Dr. Baily first incorporated the use of Botox® for headache and pain into his clinics (Headache Treatment Clinics, Toronto, Brampton and Vaughan), during the mid-nineties; and was soon honored by being asked to be a member of the North American Allergan Botox® Therapeutic Advisory Board. He had the pleasure of being trained by Dr. William Binder in Los Angeles, the first physician to realize the benefits of Botox® in the management of migraine. Shortly afterwards, he obtained his cosmetic training from Drs. Jean and Alastair Carruthers in Vancouver, B.C.; the world renowned and proudly Canadian physicians who initially discovered the use of Botox® for lines caused by facial expression.

Dr. Baily and his wife/partner Karyn M. Baily currently operate Med-Aesthetics, the only clinic of its kind in Canada devoted entirely to the multiple uses of Botox® and the Facial Filler Juvederm®
